

Russell Dudek

120-Day Entry Plan — Director, AI Operations

Pittsburgh, Pennsylvania · 412.287.8640 · russelldudek@gmail.com · linkedin.com/in/russelldudek
<https://russelldudek.github.io/Ontra/>

DAYS 1-30 — READ THE WORK

- Map tools, experiments, workflow friction, stakeholders, and decision rights.
- Interview department leaders, advocates, Engineering, Security, Procurement, Legal, and People.
- Baseline adoption, training, tool/vendor posture, and escalation.

Decision gate: Current-state case map and first proof portfolio.

DAYS 31-60 — SET USEFUL BOUNDARIES

- Launch opportunity intake and portfolio review.
- Define intervention patterns and minimum authority, access, evidence, exception, and adoption requirements.
- Curate practical training and launch the Community of Practice around real cases.

Decision gate: Working AI Operations mechanism and pilot charters.

DAYS 61-90 — PROVE CASES

- Run bounded pilots tied to workflow outcomes.
- Measure effort, quality, adoption, trust, correction, and learning.
- Document what should scale, change, stop, or remain local.

Decision gate: First reviewed operating precedents.

DAYS 91-120 — COMPOUND CAPABILITY

- Publish reusable precedents and strengthen local advocates.
- Establish scorecard and executive review cadence.
- Rationalize roadmap and tool-stack decisions using evidence.

Decision gate: Evidence-backed roadmap, ownership model, and governance cadence.

BALANCED SCORECARD

Business outcome · workflow effort/cycle time · quality/correction · retained adoption · user capability · risk/trust · time to proof · tool/vendor coherence · appropriate reuse · learning speed
